- (i) sequential
 - (ii) random
 - (iii) binary
 - (iv) All (i), (ii) and (iii)
- (g) ODBC stands for
- (i) Oracle Database Connectivity
 - (ii) Open Database Connectivity
 - (iii) Optional Database Connectivity
 - (iv) None of these
- (h) Data about data is normally termed as
- (i) directory
 - (ii) meta data
 - (iii) data bank
 - (v) None of these
- (i) The relational data model is concerned with
- (i) data structure and data integrity
 - (ii) data manipulation
 - (iii) both (i) and (ii)
 - (v) None of these
- (j) In E-R diagram, a weak entity set is represented by
- (i) double outlined rectangle
 - (ii) rectangle
 - (iii) oval
 - (iv) None of these

2. (a) What is the difference between array and dynamic array ?
 - (b) What are the different data types supported by Visual Basic? How can they be declared? Discuss the scope and lifetime of variables.
2. Differentiate between following and also list basic properties :
- (a) Picture box and image control
